

Lena Alnajjar

WEB DEVELOPER – FRESH GRADUATE

I am a recent graduate specializing in computer science information particularly in web development, with a GPA of 3.5. Throughout my academic journey, I completed several university projects gaining hands-on experience in web development. Additionally, I embarked on a three-month intensive full-stack developer training program within a corporate environment. Proficient in designing, creating, testing, and deploying web applications, I am eager to continue learning and contributing to impactful projects.

EDUCATION

BACHELOR DEGREE
OF **COMPUTER INFORMATION
SYSTEM**

- Experiences:

Globitel, Amman

Feb 2024 - May 2024

Throughout this university training, I delved into full-stack web development, using Angular, C#, Web API, and MySQL. I applied these skills to craft a web application task for Globitel, centered on Employee and Department management. This hands-on experience solidified my proficiency in creating effective web solutions.

SKILLS

- HTML
- CSS
- ANGULAR
- DATA BASE (MY SQL)
- ASP.NET CORE (C#)
- Problem solving
- WEB API
- OOP
